To Whom It May Concern,

I worked with Davi at Legit Script where I served as the team lead for the angular platforms we developed. Davi is an exceptional web developer with whom I've had the pleasure of working. He consistently demonstrates a level of professionalism, skill, and dedication that sets him apart in the field.

One of Davi's strongest qualities is his initiative. He is not the type to wait for problems to arise. He actively seeks ways to make applications more efficient, improve user experience, and enhance project outcomes. Whether implementing new features or optimizing existing ones, Davi consistently delivers meaningful contributions without needing to be asked.

Most impressive is Davi's work ethic. He can always be relied on to give his best, stay focused, and consistently deliver results ahead of expectations. Whether a task is small or complex, Davi gives it the same care and attention.

Overall, Davi is the kind of developer every team wants: reliable, proactive, communicative. I'm confident he will be a tremendous asset to any organization. I highly recommend him without reservation.

If you have any questions or would like more insight into Davi's work, please feel free to contact me.
